320 Market Street, of San Francisco
Street and No. or P.O. Box No. City or Town
California 94111, hereby make application for permission to appropriate the public
State and Zip Code No.
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) 1976-California

1. The source of the proposed appropriation is Underground
Name of stream, lake or other source.
2. The amount of water applied for is 3.34 (1500 gpm) second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet acre-feet
3. The water to be used for Mining, miling, domestic
Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
 - (a) Irrigation (state number of acres to be irrigated) N/A
 - (b) Stockwater (state number and kinds of animals to be watered) N/A
 - (c) Other use (describe fully under "No. 12. Remarks") N/A
 - (d) Power:
 - (1) Horsepower developed N/A
 - (2) Point of return of water to stream N/A
5. The water is to be diverted from its source at the following point: SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 6, T45N,
R34E, MDB&M or at a point from which the West $\frac{1}{4}$ corner of said
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
Section 6 bears S 78°45' W 2,182.9'
it should be stated.
6. Place of use All of Section 6, T45N, R34E, MDB&M
Describe by legal subdivision, if on unsurveyed land it should be so stated.
7. Use will begin about January 1 and end about December 31, of each year.
Day and Month Day and Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Construct water well with capacity of
approximately 1500 gpm, pump, motor, pipelines and other related
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
facilities

9. Estimated cost of works \$75,000-90,000 (cost of well only)
10. Estimated time required to construct works Three years
11. Estimated time required to complete the application to beneficial use Five years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Use is anticipated for a mining and milling operation. Expected use will be 1,000 gallons per day for a 24 hour shift, 7 days per week year round.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under this permit and Permit 35832 shall not exceed 525.6 million gallons annually.

The total combined diversion between this permit and Permit 35832 shall not at any time exceed 3.34 c.f.s.

This permit is issued under the terms and conditions of State Engineer's Ruling No. 2532 dated April 14, 1980.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.34 cubic feet per second, but not to exceed 525.6 million gallons annually.

Actual construction work shall begin on or before May 13, 1981
 Proof of commencement of work shall be filed before June 13, 1981
 Work must be prosecuted with reasonable diligence and be completed on or before May 13, 1982
 Proof of completion of work shall be filed before June 13, 1982
 Application of water to beneficial use shall be made on or before May 13, 1985
 Proof of the application of water to beneficial use shall be filed on or before June 13, 1985
 Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed
 Completion of work filed
 Proof of beneficial use filed
 Cultural map filed
